The St. Albans Messenger wants to know if you are loaneome or lonesome to-day.

Barre women should be ready to sign the food pledge cards to-morrow when the canvassers come around.

Every subscriber to the Liberty loan may have the satisfaction of believing that his dollar licked the Kaiser.

General Maud, commander of the British troops in Mesopotamia, has a fine chance to shine in the limelight just now with a smashing victory.

The Italian army was troubled with the same thing which affected the French and the British at the outset of the war—the lack of sufficient big guns and ammunition.

Emperor Charles of Austria is given the nominal honors, but General Mackensen is the real head of the Teuton drive in Italy. This Mackensen is a real trouble maker for the allies.

The sudden switching of the German offensive from the Russian to the Italian front must have been hastened by information as to internal conditions in Italy, with the idea in view that Italy would break down as Russia has done.

Major Ira L. Reeves, former head of the Vermont military service, is now lieutenant colonel in the United States army. From private to lieutenant colonel in a comparatively short time, with election as president of Norwich university in the meantime, is a fine record, over which Colonel Reeves' friends and well-wishers are greatly pleased.

## ITALIAN ARMY NEEDS ENCOURAGEMENT.

The first report on Sunday, Oct. 28, by the Italian war office concerning the attitude of some units of the Italian army on the Julian front when the Austro-German forces attacked will be likely to stir up considerable feeling in Italy, a feeling which will not be wholly placated by the hastily corrected version of the report issued later in the day. To charge whole Italian units with cowardice in the face of an enemy advance is a serious matter and is not calculated to improve the morale of the entire army, as we have had recent proof in the case of the Russians. Moreover, the Italian war office did not strengthen its position with its allies by making this public charge.

It is probable that the troops in question were in much the same frame of mind as is the contestant who enters a test against a much vaunted adversary; he feels lack of confidence, is shaky and almost panicky at the outset and, as the result, he allows his adversary to gain the initial advantage, later "finding himself," so to speak, acquiring confidence and then throwing himself determinedly into the encounter. Oftentimes the heralded prodigy is found to be made of common clay, gifted with little more superiority at the start than mere reputation for strength and cunning, and the panicky contestant eventually lands a winner as he gradually exerts his own great powers. So it may turn out to be in the case of the Italian army, which is now shaken by the disinclination of some of its units to fight the Teuton prodigy. The British and the French have proven that the German is not such a terror at fighting, can even be beaten back. Possibly the whole Italian army will gradually recover its poise and learn the same thing after making a desperate stand at some advantageous point. What it needs is encouragement, perhaps a little encouragement in the shape of reinforcements from the British and the French.

## A WOMAN'S BACK

The Advice of This Barre Woman Is of Certain Value

Many a woman's back has many aches and pains.

Ofttimes 'tis the kidney's fault.

That's why Doan's Kidney Pills are so effective.

Many Barre women know this.

Read what one has to say about it:

Mrs. Geo. F. Clark, 124 North Main street, Barre, says:

"I have used Doan's Kidney Pills now and then for various kidney disorders, such as lameness across my back. They have never failed to give me relief."

Price 60c, at all dealers. Don't simply ask for a kidney remedy—get Doan's Kidney Pills—the same that Mrs. Clark had. Foster-Milburn Co., Props., Buffalo, N. Y.—Adv.

## Get the Habit of Drinking Hot Water Before Breakfast

Says we can't look or feel right with the system full of poisons.

Millions of folks bathe internally instead of loading their system with drugs. "What's an inside bath?" you say. Well, it is guaranteed to perform miracles, if you could believe these hot-water enthusiasts.

There are vast numbers of men and women who, immediately upon arising in the morning, drink a glass of real hot water with a teaspoonful of limestone phosphate in it. This is a very excellent health measure. It is intended to flush the stomach, liver, kidneys and the thirty feet of intestines of the previous day's waste, sour bile and indigestible material left over in the body, which, if not eliminated every day, become food for the millions of bacteria which infest the bowels, the quick result is poisons and toxins which are then absorbed into the blood, causing headache, bilious attacks, foul breath, bad taste, colds, stomach trouble, kidney misery, sleeplessness, impure blood and all sorts of ailments.

People who feel good one day and badly the next, but who simply cannot get feeling right, are urged to obtain a quarter pound of limestone phosphate at the drug store. This will cost very little but is sufficient to make anyone a real crank on the subject of internal sanitation.

Just as soap and hot water act on the skin, cleansing, sweetening and freshening, so limestone phosphate and hot water act on the stomach, liver, kidneys and bowels. It is vastly more important to bathe on the inside than on the outside, because the skin pores do not absorb impurities into the blood, while the bowel pores do.—Adv.
